www.HARRS-FORKLIFT.com

As we continue ahead in a very challenging economic year, we here at Harr's Forklift are dedicated to helping you find the right solutions for your material handling needs. At Harr's we understand that controlling expenses and having reliable service is even more important in today's economy. Family owned since 1968, Harr's has been a fixture in the industry for over 41 years. Our dedicated team, specializing in saving you time and money, invite you to consider Harr's for all your industry needs. **Harr's Forklift is proud to present its new line of TUSK lift trucks.** Never heard of a TUSK?

Odds are that you have:

- 1989** - Kalmar Industries purchases Allis Chalmers and is formally known as Kalmar AC
- 1999** - Komatsu Forklift U.S.A. purchases Kalmar AC with an agreement that Kalmar Industries changes name before March of 2006
- 2005** - Effective August 2005 Kalmar AC is officially called TUSK

TUSK forklifts are proudly built here in the United States of America in Covington, GA. Manufactured at Komatsu Forklift U.S.A.; TUSK lift trucks are an extension of the quality our customers have come to expect from Komatsu U.S.A. and its entire range of models. Over the last few decades that Harr's has been a Komatsu dealer we have always been proud of our ability to provide reliable products and service to central Ohio and outlying areas. Harr's acquisition of the TUSK line will not affect our ability to service our current Komatsu customers. We welcome the opportunity to be of service to you on any of your future material handling needs. Please visit our website at www.harrs-forklift.com for additional information about our products and services. When you visit us on-line, you will have the ability to request a quote, browse through our material handling catalog or inquire about our *total source* parts program allowing us access to parts for most makes and model forklifts. We here at Harr's Forklift are committed to you and your success and look forward to the opportunity of earning your business.

Respectfully,

Carlos Harr
President
Harr's Forklift Service, Inc.
